

Qlife call for interdisciplinary projects 2024

Frequently asked questions

- 1) What are the reviewing criteria?
Reviewing criteria include : scientific quality, interdisciplinary aspects, novelty and expertise of the team to carry out the project.
This year, projects with teams in more than one institute of Qlife will be favored to foster new collaborations.
- 2) How long is the funding for ?
This funding is for 2 years.
- 3) How many projects will be funded ?
Up to 5 projects for up to 100k€ each will be funded for this call.
- 4) Are external collaborations allowed ?
This call is meant for interdisciplinary projects with or without collaborations, either within Qlife or outside of Qlife. If collaborations are with teams that are not members of Qlife, the external teams will not be able to request funding directly. Only the Qlife teams can request funding in the budget part of the application.
- 5) Can I be involved in several project proposals ?
A researcher can be coordinator of only one proposal for this call. However, the same person can be involved in several project applications.
- 6) Which teams are part of Qlife?
Please refer to our website <https://fr.qlife.psl.eu/node/140> to find the list of all Qlife members.
- 7) How much are the overheads?
The overheads are 2,5%. If selected, you will receive the total amount announced in the selection email, the 2,5% overheads will be added to this amount not subtracted. For example, if you are granted a 80k€ funding, you will receive 80k€ for your project + 2k€ (2,5% of 80k€) of overheads for your institute.
